

INSTALLATION INSTRUCTIONS

Microsoft OLE DB Provider for Visual FoxPro 9.0 Driver

Download the driver by right-clicking on the file name (**VFPOLEDBSetup.msi**) and selecting **SAVE TARGET AS** from the menu that appears.

Save the file to your desktop.

Once saved, double-click on the file and select **RUN** on the menu.

The installation wizard will now guide you through the installation process. You need to click on the **NEXT** button (bottom right of the guide) to move through the installation process.

When asked to review the License Agreement, select the **I AGREE** button and then click on **NEXT**.

Then continue clicking on **NEXT** until the installation begins.

Once complete click on **CLOSE**, and you are done. You can delete the driver file from your desktop.

If you have any questions, please contact I.S. at 714-999-3765.
